## THE COUNTRY.

### A Bird's Eye View of the Kentucky Situation

Through the Great Glasses of the Daily Medium.

### TAYLOR AMAZES THEM ALL.

ALMOST BEYOND BELIEF.

Like his attempt to remove the Legislature to London, these acts of Taylor show his utter contempt for law. That a man calling himself Governor should use the militia to protect men charged with conspiracy to murder from arrest is almost incredible. If they can not secure a fair trial, the courts of Kentucky must bear the odium, but there is nothing to prove that such is the case.—Buffs. Co. Courier, Dem.

TAYLOR PUSHES THE WORK ALONG.

The crack of the rifle that sent Goebel to his end began the unification of the Democrats and the division of the Republicans, and since, by every act of omission and commission, Taylor has pushed the work along. Kentucky's "mountain" Governor has practically killed his party in his State.—Des Moines Leader, Rep.

A WRONG WITH UT A REMEDY.

Without calling in question the honesty of Judge Field's decision, it appears to be a clear case of a wrong without a remedy. If the Court of Appeals, composed of three Democrats and two Republican Judges, sustains Judge Field's view of the case presented to him, why that ends it.—Washington Times, Dem.

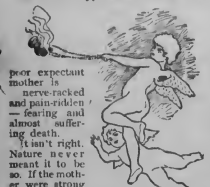

TAYLOR'S SHARE OF GUILT.

Taylor, the man who signed those bogus pardons, is as guilty, if circumstances evidence anything, of conspiring to assassinate Gov. Goebel as is either Powers or Davis. Under the law of conspiracy, he is guilty of murder as the instigator who fired the rifle that killed Goebel.—Kansas City Times, Dem.

AN INCENDIARY DOCUMENT.

Gov. Taylor has seen fit to issue a statement about the new development, which seems ill-considered in its assault upon the State courts, charging that they "have become so partisan that it is practically, if not absolutely, impossible for any man not of their (Democratic) persuasion to obtain a fair trial." This is a statement of a man who has just been elected Governor by a vote of 100,000 against 50,000.

Baby's coming should be a time of joy and happiness. Fear should be forgotten and pain a stranger. How often is it so? As the time approaches how often the

poor expectant mother is nerve-racked and pain-ridden—fearing and almost suffering death. It isn't right. Nature never meant it to be so. If the mother were strong and well in a womanly way, as she ought to be, there would be no danger and little pain. The time of parturition is made comfortable and safe by the use of Dr. Pierce's Favorite Prescription. It is a medicine designed by a skilled physician—a specialist in the diseases of women—for the express and only purpose of putting the whole womanly system into perfect, vigorous health. It works directly on the organs involved in baby's advent and makes them strong, healthy and flexible. Taken during the whole period of gestation it insures the perfect health of both mother and child.

Mrs. Mattie E. Grimes of Hamilton, Wisconsin, writes: "I have had three bottles of your 'Favorite Prescription' and am now a happy mother. My baby is now three months old and weighs fifteen pounds and is a healthy, robust child. I had the largest one of all my children and it was the easiest and shortest time I ever had. I am stronger and healthier than ever before. I can do all my housework and my baby is a perfect little fellow. My God bless you and your good medicine."

For obstinate constipation Dr. Pierce's Pleasant Pellets are the most perfect medicine ever devised. They give prompt, comfortable, permanent relief.

tain a fair trial." This may be true but it does not become the Governor of the State who has appealed to them to decide upon the legality of his own this to "flee to say it. In fact, the Governor's entire statement comes very near to being an *luculent* document, and in the inflated condition of the public mind, with the leaders on both sides calling for troops, it would have been much wiser for him to have kept quiet and abided by his agreement to leave the whole matter in the hands of the courts.—New York Commercial Adviser, Rep.

CRIMINAL.

Gov. Taylor's attempt to pardon men before they have been tried or even indicted for the crimes of which they are charged is sheer nonsense, of course, and his use of the militia to prevent the arrest of these men seems criminal.—Nashville Banner, Ind.

RESISTANCE MUST BE SHORT.

As nearly as we can judge at this distance, Taylor is without much active support in any quarter, save that of one great corporation and the handful of the mountains. If this be a correct view, his armed resistance must be short and confined to the disaffected section, to which it is believed he intends to go, carrying with him the public records.—Washington Times, Dem.

MOTIVES KNOWN.

Taylor, of Kentucky, has entered into a long explanation why he objects to the arrest of certain officials on the charge of being implicated in the murder of Goebel. An explanation was unnecessary. Every one knows his motives.—Peoria Herald, Dem.

"It."

Not only is an honest man the noblest work of God, but Mr. Taylor, of Kentucky, appears to be "it." The returning boards are home-combed with fraud: the Election Commissioners would rather drop dead than be caught doing a reputable act; the Legislature is unspokeably vile; the courts are putrid beyond the power of man to describe. Nothing in all Kentucky is pure and noble except Mr. Taylor, and in view of the unprecedented condition of affairs, he has generously volunteered to act as the State Government. He is discharging the duties of Governor in spite of the fact that he has no legal title. With such a benevolent ruler there is no need for a Legislature; so Mr. Taylor prevents the Legislature from acting. The courts being rotten, it would be a terrible calamity if they were allowed to do business, so Mr. Taylor takes it upon himself to perform their functions. Nothing more extraordinary than the conduct of Mr. Taylor has ever been witnessed in American politics, and that gentleman's performance becomes the more remarkable as time flies. Mr. Taylor is by far the most amusing has-would Caesar that ever reared his head in a republic.

### Sideviews of Life.

The night-key always has the hardest work to do in the morning.

A standstill joke may not require a seat, but there are times when it should be shivered.

The dentist finds work for his own teeth by depriving other people of theirs.

Some men seem to think that a woman's mission is sublimation.

A splutterer says she loves cats because they are treacherous like men.

An underwriter says the eyes of women kindle the only flames against which there is no insurance.

An egotist is a man who imagines he is in good company when alone.

Boss Hanna is quoted as being in doubt between Steve Ekins and Secretary Biles, for second place on the McKinley ticket. If that be true, Ekins will get it, as he is a man of the Hanna stripe.

Secretary Hay's Americanism is already questioned by many, and if he doesn't do less kicking about the Americanizing of the Nicaragua Canal treaty, it will be questioned by everybody.

### FART, TERSE AND TIMELY.

Ben Harrison's load of boom is melted as soon as the rays of the sun of publicity reached it.

No good Democrat, in or out of Congress, will ever vote to punish deposed rulers of annexed countries.

Congressman Smith, of Kentucky, says Taylor will be put out of the State House, if it takes every gun in the state to do it.

Chicago's new labor war, which the strike has been aptly called, may grow into serious proportions and be extended to other places.

Republican troubles over the Porto Rico Tariff bill will make the affairs of that island a sore subject among them for some time to come.

The touts will have to get after the Ohio Supreme Court which has affirmed the right of a stockholder to examine the books of a corporation.

The Filipinos have been doing some more hard fighting, which doesn't square with the repeated statement of Gen. Otis that the war was over.

Post-master General Smith is said to expect to become Secretary of State if Mr. McKinley throws Hay overboard in order to please the anti-Eglish Republicans.

Mr. McKinley says the French reciprocity treaty must be ratified; a strong coterie of Republican Senators say it shall not be ratified. That is the present status of the treaty.

The country would appreciate a statement from the Administration of what it intends to do about the anti-American meat bill, which has been passed by the German Reichstag.

### Open Session by the Mt. Sterling Woman's Club.

The Mt. Sterling Woman's Club held an open session at the home of Miss Annie Samuels, Tuesday afternoon. The object of the meeting was to give to the friends of the club an opportunity of witnessing the literary progress of its members, and to stimulate greater interest in the club work. No greater effort was made in the preparation of the papers than for a regular meeting. The music was in charge of a special committee. The following program was given:

Duet—"Holiday Spirits" by Master Harry and Miss Samuels. Sketch—"Famous American Singers" by Mrs. Nelson Trimble.

Vocal Solo—"Bunch of Violets" by Miss Eliza Samuels. Paper—"Juvenile Literature" by Mrs. Aoward French.

Vocal Solo—"The Gift" by Mrs. James Pickrell. Sketch—"James Russell Lowell" by Mrs. James Kennedy.

Vocal Solo—"A Dream" by Miss Flora Samuels. Paper—"American Song Writers and Composers" by Mrs. Clayton Howell.

Piano Solo—"Recollections of Home" by Mr. Harry Samuels. The club has a membership of twenty-one and meets every other Tuesday afternoon at the homes of the members, and is engaged for the present winter, in the study of American history, literature and art.

### INTERESTING FACTS.

#### Important to the Farmers—Benefits of Tile Drainage.

In this short season, we can not set forth all particulars of the advantages of the drainage, but will confine to most important points. Water is the life of the country in 1831 and was brought from the old country. It has now reached every section of our country to some extent. The drainage has brought out blooming gardens and productive fields, swamps and mis-matched bogs, in our great Western level country. Will now submit for your consideration, how and why it has accomplished as much.

The mission of the tile is to take away the water, which warms the soil, by settling the rainfall which is warmed on the surface of the ground, which warms is communicated to the earth as it passes down to the tiles, heat and moisture are two necessary elements to vegetation. Experience has shown that drained soil is on an average of seven degrees warmer at a depth of seven inches, than undrained soil. Heat and moisture are necessary to the germination and sprouting of seeds and the growth of plants. While in the absence of these elements, the seed would be dormant to the ground and finally decay.

The soil being made warmer, the season for planting becomes earlier, and lengthens the season, while soil being at all times in proper condition, vegetation thrives continuously. The fertility of the soil is conserved on drained land, for the water, instead of seeping over the surface to a lower level, carrying the enriching matter, descends, slowly, through the open tubules of the earth, carrying the fertilizing ingredients with it to the roots of the plant. Observation has shown us that the soil needing the most drainage is the most compact, being made so by water. Plant food is not so easily retained in the soil, while the water will slowly filter through it and run clear from outlet of tile. Drainage lowers the water level, encouraging the roots of the plant to penetrate below the effects of summer drought, securing the free admission of air, which is also essential to plant growth. Tilling prevents floods to some extent, as it lowers the water level. The action of the water, seeking the tile below, leaves the earth full of innumerable pores, which hold the water till it finds its way, slowly, down to the tiles, enriching the roots of plant life with the salts of the air which the rainfall precipitates. We have observed that on tiled land, the surface dries out very rapidly after rainfall, but the top of the soil, dried, is very shallow. These dried parts act as a mulch over the surface, preventing too rapid evaporation, and causing the little rootlets to penetrate the arable soil seeking nourishment and strength necessary to plant life. This same condition of soil prevents early freezing in autumn or the thawing and freezing in early spring so injurious to wheat. Plant life demands air as well as heat and moisture, every one knows how essential plowing is for a corn crop. The leading of the water downward opens the soil, admits warmth, increases its depth below the young roots of the plants. Cold wet feet for plant life is as fatal as for human life.

Applying the same principle, that tillers are applied to land it will wash off on the surface for the porosity of the earth retains it as already shown.

The drainage is beneficial in dry weather for the reason the pores in the ground made by action of the water become breathing holes, centering on the tile in numbers; and these pores connecting the tile with the surface of the ground act as little chimneys or breathing holes which create a draft through the soil. This brings the night air, laden with moisture, in contact with the soil, is cooler than the air and causes the dampness to be taken up by the soil, and communicated to the roots of vegetation.

The drainage has made low marshy lands of the great West more favorable

for human existence, improving the sanitary conditions, resulting in the breathing of pure air in lieu of poisonous vapors, and has reduced the much dreaded chills to a minimum, and the price of quinine is well. Much more could be said, but this we will leave to every conservative possessor of low and swampy lands. What it has done for the West is well known to you. Note the fertility of swamps, they can be made the most productive by tilling.

**HIS DYING WORDS**

"Tell my friends to be brave and fearless and remain loyal to the great common people."

—Gov. Wm. Goebel.

**NO, I THANK YOU.**

President McKinley wrote a letter to our English kinsfolk and told them he would be pleased to help them let go of the Boers. To which our kinsfolk responded: "No, I thank you, we can manage this little job." Doubtless they had been watching the spirit of Mack in the Cuban-Spanish fray when he told the boys, "By your consent we'll come over and attend to the Spaniards." Our English people may have observed that when the Spaniards had been attended to that Mack proceeded to jump on the little folks and take what they had and since the English are somewhat akin to hogs they had no idea of accepting the United States peace proffer and then have to divide what they took from the Boers. The English are alive on these lines and McKinley's amateur methods make no scoop with them.

Had this unpleasantness occurred during the Democratic administration, Cleveland would have come in from a memorable duck hunt, set his gun down in the corner, picked up a scrap of paper and written thusly: "My dear John Bull, if you don't let those little boys alone I'll twist your tail off," and that would have been the end of it.

England may have looked further and realizing our mix-up over in Manila might have reasoned this way: Should we accept this peace intervention, then as a matter of courtesy we would have to take part in that mix-up in which the Filipino roosters are giving the United States a powerful sight of worry, so they thought the easiest way out was, "Thank you, we'll take care of the Boers and you the Filipinos."

**UNINTENTIONAL TRUTH.**

Sometimes Republicans are truthful. They were when they said the reason many Republicans would not vote for Mr. Cressy for State Senator to succeed Senator Goebel was because he had been an ardent Democrat and still held to Democratic doctrines. An object lesson is this to Democrats who would affiliate with Republicans.

**AT HOME.**

Uncle Billie, Dr. W. H. Whit, recently deceased President, or something to that effect, of the Southern Baptist Theological Seminary, is at home from abroad again.

His many friends, who welcome him, especially those of the pecto-Baptist faith, for Uncle Billie has been there again in that same British museum and with his own eyes saw the horse. He is seventeen feet high and there is no mistake about it. After a shake all around and a rest from the sea uncomformableness Uncle Billie will seclude himself in order that he may bring forth another book. Why another book Uncle Billie? Didn't you say your recent and more elaborate investigation confirmed the former discoveries which were woven into a book?

Now it does look to us just like the brother at the expense of his church would write a book and arouse dissonance that he may gain profit thereby. However, the brother may again, as he did for the Independent, write from a pecto-Baptist standpoint. Giving advice free, we would urge the brother to be careful how he writes—to keep very close to the shore or he will have Joe Eaton, of Colorado, after him again with another sharp stick.

Seriously, let Uncle Billie write his book, then let the matter be discussed between him and his brethren. Rev. J. N. Hall might be able to give the brethren more light on Baptist history.

**GOEBEL'S SUCCESSOR.**

Because of the falling off of the Democratic vote in Kenton county in the election of Mr. Habeson to succeed Mr. Goebel, the Republicans would have us believe it attributable to the opposition of Democrats to the election law. No such thing. The Democratic votes were in Kenton county and the only reason for antipathy was the lack of that enthusiasm which goes with a red-hot campaign.

**WATER-WORKS.**

If Mt. Sterling has an opportunity to get water works from a responsible company, after throwing about the legal safeguards protecting the city's future interests, the needed permits should be granted; the time for beginning work should be thirty days and the period for completion six months. Such requirements accepted by the company would be evidence of ability to construct the plant on money not to be arranged for.

"The wicked flee when no man pursueth." There are some fellows just scared out of their wits for fear of arrest. What connection they have had with the murder of Governor Goebel, they know. It may be remote and yet have led to the assassination. Why the unrest of Senator Deboe did his blood-wading expressions incite the Satanic fiend to the commission of the dastard crime?

Somebody is busy starting reports that some persons, never suspected of being connected in any way with the murder of Governor Goebel, will be arrested. The object is to break the force of public sentiment against those parties now under arrest and is a scheme of the conspirators.

**THE BEST.**

A gentleman, a Brown Democrat at that, handed us an advertisement with the following prospect:

"Please, if you decide to put this in, be sure and let a Democratic paper have it, as they are the people who want only the best."

It matters not who the conspirators in the murder of Gov. Goebel are, be they of high or low station, they are felons and as such they must be dealt with.

**THE COMMONWEALTH.**

**GOVERNORS IN LOUISVILLE.**

Two of the Supporters of Taylor Street for Washington on Some Mission Not Made Public.

Louisville, Ky., March 19.—The two governors of Kentucky were entertained in this city Sunday. Messrs. Taylor and Beckham both insisted that they had come to Louisville on purely personal business, and that their visits had no political significance. They spent the day quietly, though both received numerous calls from their political and personal friends.

Taylor and his associates among the republican party leaders are very close-mouthed as to the nature of the mission on which they were here. But C. M. Barnett and Collector of Internal Revenue Sapp left for Washington Saturday night after their conference with Taylor, but their little doubt it has to do with the attitude of the national administration toward the republican state officers. The latter do not conceal their purpose to hold onto their positions until the United States supreme court has passed upon the question of their right to hold them. They do not intend to surrender the state buildings and records after the decision by the state court of appeals, if that court should decide against them. There has been some talk that the democratic officers may try to exercise their functions in earnest in case they are upheld by the court of appeals, which they regard as the crisis of the last resort in their cases, and it is believed the republicans wish to know the feeling of the national leaders of their party toward their policy.

**Lawyers Refuse to Talk.**

Frankfort, Ky., March 19.—Ex-Gov. Brown and J. C. Sims, who will defend false Powers, John Davis and William H. Cotton, suggests held on the charge of being accessory to the murder of William Goebel, have arrived here. Ex-Gov. Brown was asked if the pardons granted by Taylor to Powers and Davis on the night they fled from here and were overhauled at Lexington would be pleaded as a defense to the prosecution at the ensuing trials, but he declined to answer, though Mr. Powers, one of the defendants, has indicated that such a defense may be offered.

**Purchasers Buy the Trust.**

Williamstown, Ky., March 19.—E. A. Shaw, agent for the Continental Tobacco Co., has purchased nearly 1,000,000 pounds of tobacco in this county. He estimates the total product of the grant county to be more than 5,000,000 pounds. The purchase price will average 7 cents per pound.

**Kentucky Governorship Case.**

Louisville, Ky., March 19.—The governorship case is still in the circuit court of this county. Judge Field is expected to dispose of it this week, when it will be taken to the court of appeals. A week or two more will be consumed by the proceedings before that court.

**Will Go On Calumet Road.**

Lexington, Ky., March 19.—Jailer Lawrence at Frankfort told the court that unless the commonwealth would furnish a guard for the prisoner, he would remain at his home with his sick wife, he himself would take the responsibility on his own personal bond.

**Murder in the First Degree.**

Lexington, Ky., March 19.—The jury in the case of Frank Dismore, charged with the murder of his wife and John Lane, the husband of his paramour, Saturday returned a verdict of guilty of murder in the first degree, and fixed the penalty at death.

**Working His Way Through.**

Lexington, Ky., March 19.—Frank Tinkie, Indianapolis on the battle ship Texas is here, en route to New York. While the ship was at New Orleans he went ashore and was left. He has been two weeks resting here. He is working his way through.

**Creditors Get One-Quarter.**

Louisville, Ky., March 19.—In the bankruptcy case of E. B. Nugent, the dry goods merchant, a settlement of 25 cents on the dollar has been agreed upon.

**Cracked the Safe.**

Mayfield, Ky., March 19.—At the dry goods store of the Senator, Mr. Wingo, burglers secured \$200 in cash by cracking the safe with dynamite.

**Caught on a Treach.**

Nicholasville, Ky., March 19.—Albert Munis, a Negro, was killed by a train while attempting to cross a trestle near Valley View.

**Mother and Daughter Acquitted.**

Mayfield, Ky., March 19.—Miss Ada Mitchell and mother, of Wingo, were acquitted of the charge of murdering the former's infant child.

**Death of Clifford P. Parker.**

New York, March 19.—Word has been received here that Clifford Parker, formerly a merchant in this city, died recently at The Hague, Holland, of locomotor ataxia, after an illness of six years. He was 69 years old, and was born in Cincinnati. He was a son of Judge James Parker, of Cincinnati.

**Chicago Club Going South.**

West Baden, Ind., March 19.—The Chicago Baseball club will leave West Baden Wednesday for Selma, Ala. The original intention of stopping at Memphis has been abandoned. Manager Loftus expects to play games there April 7 and 8 on his return from Alabama, and then go to Louisville.

**NINE PERSONS INJURED.**

A Coal Chute Drops on an Elevated Train on the Ninth Avenue Line in New York City.

New York, March 19.—Nine persons were injured early Sunday morning in an accident to a Ninth avenue elevated train near Hector street. Five of the nine are severely injured, and one of these, David A. Findley, is at the Hudson Street hospital, suffering from a fracture of the skull. The most seriously injured besides Findley are Richard B. Barlow, of Yonkers, engineer of the train, scalp wounds and shock; Thomas Shiley, an engineer, internally injured; Alfred Alexander, salesman, internally injured; James Manning, laborer, injured about the head.

As the train was approaching a crossing station the coal chute dropped down almost at the moment the train reached the station. The chute struck the roof of the cab and tore it off, at the same time throwing Engineer Barlow and Fireman Hutchings to the floor of the cab. Barlow's hand was severely injured at a severe angle of collision, and as he fell his hand turned on the pressure still more, and the engine dashed ahead at full speed up the tracks, stopping only when it had reached Barclay street because of the exhaustion of the steam. Meanwhile the chute struck the roofs of the two passenger cars, and the dozen passengers in the cars were thrown in every direction.

**Killed in a Boating Boat.**

Santa Cruz, C. March 19.—Frank Case, 19 years old, was killed at Levin Lakes in a friendly boat with Bert Whidden. In the eighth round Whidden struck Case with a blow on the left side of the neck, death resulted in half an hour. Case weighed 170 pounds, being 20 pounds heavier than Whidden.

**Colony of Missouri Farmers.**

# HIS DYING WORDS

"Tell my friends to be brave and fearless and remain loyal to the great common people."  
—Gov. Wm. Goebel.

J. C. W. BECKHAM

# NO, I THANK YOU.

President McKinley wrote a letter to our English kinsfolks and told them he would be pleased to help them let go of the Boers. To which our kinsfolks responded: "No, I thank you, we can manage this little job." Doubtless they had been watching the spirit of Mack in the Cuban-Spanish fray when he told the boys, "By your consent we'll come over and attend to the Spaniards." Our English people may have observed that when the Spaniards had been attended to that Mack proceeded to jump on the little folks and take what they had and since the English are somewhat akin to hogs they had no idea of accepting the United States peace proffer and then have to divide what they took from the Boers. The English are alive on these lines and McKinley's amateur methods make no scoop with them.

Had this unpleasantness occurred during the Democratic administration, Cleveland would have come in from a memorable duck hunt, set his gun down in the corner, picked up a scrap of paper and written thusly: "My dear John Bull, if you don't let those little boys alone I'll twist your tail off," and that would have been the end of it.

England may have looked further and realizing our mix-up over in Manila might have reasoned this way: Should we accept this peace intervention, then as a matter of courtesy we would have to take part in that mix-up in which the Filipino roosters are giving the United States a powerful sight of worry, so they thought the easiest way out was, "Thank you, we'll take care of the Boers and you the Filipinos."

# UNINTENTIONAL TRUTH.

Sometimes Republicans are truthful. They were when they said the reason many Republicans would not vote for Mr. Cressy for State Senator to succeed Senator Goebel was because he had been an ardent Democrat and still held to Democratic doctrines. An object lesson is this to Democrats who would affiliate with Republicans.

# AT HOME.

Uncle Billie, Dr. W. H. Whitsett, recent deposed President, or something to that effect, of the Southern Baptist Theological Seminary, is at home from abroad again. His many friends, will welcome him, especially those of the peder-Baptist faith, for Uncle Billie has been there again in that same British museum and with his own eyes saw the horse. He is seventeen feet high and there is no mistake about it. After a shake all around and a rest from the sea discomfortableness Uncle Billie will seclude himself in order that he may bring forth another book. Why another book Uncle Billie? Didnt you say your recent and more elaborate investigation confirmed the former discoveries which were woven into a book?

Now it does look to us just like the brother at the expense of his church would write a book and arouse dissention that he may gain profit thereby. However, the brother may again, as he did for the Independent, write from a peder-Baptist standpoint. Giving advice free, we would urge the brother to be careful how he writes—to keep very close to the shore or he will have Joe Eaton, of Colorado, after him again with another sharp stick.

Seriously, let Uncle Billie write his book, then let the matter be discussed between him and his brethren. Rev. J. N. Hall might be able to give the brethren more light on Baptist history.

# GOEBEL'S SUCCESSOR.

Because of the falling off of the Democratic vote in Kenton county in the election of Mr. Hixson to succeed Mr. Goebel, the Republicans would have us believe it attributable to the opposition of Democrats to the election law. No such thing. The Democratic votes were in Kenton county and the only reason for antipathy was the lack of that enthusiasm which goes with a red hot campaign.

# WATER-WORKS.

If Mt. Sterling has an opportunity to get water works from a responsible company, after throwing about the legal safeguards protecting the city's future interests, the needed permits should be granted; the time for beginning work should be thirty days and the period for completion six months. Such requirements accepted by the company would be evidence of ability to construct the plant on money not to be arranged for.

"The wicked flee when no man pursueth." There are some fellows just scared out of their wits for fear of arrest. What connection they have had with the murder of Governor Goebel, they know. It may be remote and yet have led to the assassination. Why the blood of Senator Deboe? Did his ungodly expressions incite the Satanic fiend to the commission of the dastard crime?

Somebody is busy starting reports that some persons, never suspected of being connected in any way with the murder of Governor Goebel, will be arrested. The object is to break the force of public sentiment against those parties now under arrest and is a scheme of the conspirators.

# THE BEST.

A gentleman, a Brown Democrat at that, handed us an advertisement with the following prospect:

"Please, if you decide to put this in, be sure and let a Democratic paper have it, as they are the people who want only the best."

It matters not who the conspirators in the murder of Gov. Goebel are, be they of high or low station, they are felons and as such they must be dealt with.

# THE COMMONWEALTH.

## GOVERNORS IN LOUISVILLE.

Two of the Supporters of Taylor Start for Washington on Same Mission Not Made Public.

Louisville, Ky., March 19.—The two governors of Kentucky were entertained in this city Sunday. Messrs. Taylor and Beckham both insisted that they had come to Louisville on purely personal business, and that their visits had no political significance. They spent the day quietly, though both received numerous calls from their political and personal friends.

Taylor and his associates among the republican party leaders are very close mouthed as to the nature of the mission on which Governor of the Post of C. M. Dannel and Collector of Internal Revenue Sapp left for Washington Saturday night after their conference with Taylor, but there is little doubt it has to do with the attitude of the national administration toward the republican state officers. The latter do not conceal their purpose to hold onto their positions until the United States supreme court has passed upon the question of their right to hold them. They do not intend to surrender the state buildings and records after a decision by the state court of appeals, if that court should decide against them. There has been some talk that the democratic officers may try to exercise their functions in earnest in case they are upheld by the court of appeals, which they regard as the court of last resort in their cases, and it is believed the republicans wish to know the feeling of the national leaders of their party toward their policy.

# Lawyers Refuse to Talk.

Frankfort, Ky., March 19.—Ex-Gov. Brown and J. C. Sims, who will defend Caleb Powers, John Davis and William H. Fulton, suspects held on the charge of being accessory to the murder of William Goebel, have refused here, Ex-Gov. Brown was asked if the pardons granted by Taylor to Powers and Davis on the night they fled from here and were overhauled at Lexington would be pleaded as a defense to the prosecution at the examining trials, but he refused to answer, though Mr. Powers, one of the defendants, has indicated that such a defense may be offered.

# Purchase by The Trust.

Williamstown, Ky., March 19.—R. A. Shaw, agent for the Continental Tobacco Co., has purchased nearly 1,200,000 pounds of tobacco in this county. He estimates the total production of Grant county to be more than 5,000,000 pounds. The purchase price will average 7 cents per pound.

# Kentucky Government Case.

Louisville, Ky., March 19.—The government case is still in the air. Little doubt is made of this. Judge Field is expected to dispose of it this week, when it will be taken to the court of appeals. A week or two more will be consumed by the proceedings before that court.

# Will Go On Cutters' Board.

Lexington, Ky., March 19.—Jaller Lawrence at Frankfort on the 19th inst. that unless the commonwealth would furnish a guard for Cutler and allow him to remain at his home with his sick wife, he himself would take the responsibility on his own personal bond.

# Murder in the First Degree.

Lexington, Ky., March 19.—The jury in the case of Frank Dismore charged with the murder of his wife and John Lane, the husband of his paramour, Saturday returned a verdict of guilty of murder in the first degree, and fixed the penalty at death.

# Working His Way Through.

Lexington, Ky., March 19.—Frank Blake, landsman on the battle ship Texas is here, en route to New York. While the ship was at New Orleans he went ashore and was left. He has been two weeks reaching here. He is working his way through.

Louisville, Ky., March 19.—In the bankruptcy case of E. R. Nugent, the dry goods merchant, a settlement of 25 cents on the dollar has been agreed upon.

# Cracked the Safe.

Mayfield, Ky., March 19.—At the dry goods store of Dan Slaughter, of Wingo, burglar removed \$18 in cash by cracking the safe with dynamite.

# Caught on a Treach.

Nicholasville, Ky., March 19.—Albert Munly, a Negro, was killed by a train while attempting to cross a trestle near Valley View.

# Mother and Daughter Acquitted.

Mayfield, Ky., March 19.—Miss Ada Mitchell and mother, of Wingo, were acquitted of the charge of murdering the former's infant child.

# Death of Gifford P. Parker.

New York, March 19.—Word has been received here that Gifford Parker, formerly a merchant of this city, died recently at The Hague, Holland, of locomotor ataxia, after an illness of six years. He was 59 years old, and was born in Cincinnati. He was a son of Judge James Parker, of Cincinnati.

# Chicago Club Going South.

West Baden, Ind., March 19.—The Chicago Baseball club will leave West Baden Wednesday for Richmond, Ala. The original intention of stopping at Memphis has been abandoned, but Manager Lester says the team will play games there April 7 and 8 on his return from Alabama, and then go to Louisville.

# NINE PERSONS INJURED.

A Coal Chute Drops on an Elevated Train on the Ninth Avenue Line in New York City.

New York, March 19.—Nine persons were injured early Sunday morning in an accident to a Ninth avenue elevated train near Rector street. Five of the nine are severely injured, and one of these, David A. Findley, is at the Hudson Street hospital, suffering from a fracture of the skull. The most seriously injured besides Findley are Richard B. Barlow, of Yonkers, engineer of the train, scalp wounds and shock; Thomas Shively, an engineer, internally injured; Alfred Alexander, salesman, internally injured; James Manning, laborer, injured about the head.

As the train was approaching a coaling station the coal chute dropped down almost at the moment the train reached the station. The chute struck the roof of the cab and tore it off, at the same time throwing Engineer Barlow and Fireman Findley to the floor of the cab. Barlow's hand was on the throttle at the moment of collision, and he fell head first, turned on the pressure still more, and the engine dashed ahead at full speed up the tracks, stopping only when it had reached Barclay street because of the exhaustion of the steam. Meanwhile the chute had wrecked the roofs of the cars, and passengers in the dozen passengers in the cars were thrown in every direction.

# Killed in a Boxing Bout.

Santa Cruz, Cal., March 19.—Frank Cass, 18 year old, was killed at Levin Lake in a friendly bout with Bert Whidden. In the eighth round Whidden struck Cass with a sixpence glove on the left side of the neck, both resulted in half an hour. Cass weighed 170 pounds, being 20 pounds heavier than Whidden.

# Galaxy of Missouri Farmers.

Chilunhua, Mexico, March 19.—A colony of 400 Missouri farmers is to be established in the valley of the Cocho river in this state. The promoters of the colonization scheme have purchased 20,000 acres of rich valley, and a number of the colonists have already arrived.

## FITZPATRICK

**Describes the Death of Gen. Lawton at San Mateo.**

**Soldier on the March Without Shoes to Wear.**

**Fared Well During the Christmas Holidays.**

Manila P. O.  
Dec. 22, 1899.

DEAR MOTHER—Your letter of Oct. 1st just reached me and I will now answer. All home news is read here with much interest.

The rainy season is over now and the rebellion is almost suppressed. But in stopping the insurrection we have lost one of our best and bravest leaders, Gen. Lawton. He was killed at San Mateo, by the insurgents, while trying to help one of his staff officers, who was shot in the arm. The bullet passed through his heart and he expired in a few minutes. Every officer and soldier regrets his loss, for Gen. Lawton was liked by all, and did more to stop the war than any other officer over here.

Our regiment has been fighting, but is now in some towns holding them and keeping the river Grande open to travel. When they were fighting they, often, were without rations. Some of the men marched several days without shoes to wear; thus their feet became covered with sores and swelled up so they had to be sent to the hospital in Manila. Out of five hundred men, only two hundred are really able for duty. My company has not been heard from for over two weeks and I don't know their condition. Well, I am still in the hospital and am improving a little. Am glad to hear you are all well and hope this will still find you healthy. I will close now, having no more news at present.

Your Son,  
ARTHUR FITZPATRICK,  
Co. C, 22nd, Infy.

San Fernando, P. O.  
Jan. 20, 1900.

DEAR MOTHER—Was very glad to get your letter dated Oct. 1st, and read it with pleasure. It reached me after much delay, as I had reported for duty to the Company, I am feeling fine now and doing duty, having been out of the hospital over a week.

We had an excellent time Christmas and Thanksgiving. Our dinner consisted of turkey, chicken, peas, corn, potatoes and gravy, and pie, cake, mixed nuts, bananas and oranges for dessert. Each one also got a bottle of beer and patients on liquid diet had a bottle of wine. So you see we celebrated in true U. S. style, those old and joyous holidays.

The rebellion is about broken up as our boys just finished a campaign of two months. They were in the mountains and had very poor rations. Now many of them are sick and four died of sickness. I missed that march, however, being too sick to go. We are now here in good quarters, and will probably stay here until we are ordered home.

We got a nice Christmas present from the Red Cross Society, consisting of a comb, cake of soap, tooth brush, towel, and two stomach bandages. These were very much appreciated, as everything is useful to a soldier.

Tell May to give all the girls my best regards and thanks for thinking of me. When I get back I will have lots to tell them.

There is talk here of our returning before very long, but nothing definite. Tell all who wish to write, I will be glad to hear from them. Well, goodbye for a short time, answer soon.

Your loving son,  
ARTHUR FITZPATRICK.

## Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself?

If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

## Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

Dan Peed, of Paris, who purchased the Burley samples at the recent Mayville Tobacco Fair, has shipped the tobacco to the Paris Exposition to compete for the \$2,000 prize for Kentucky. Mr. Peed says this tobacco is the finest Burley ever raised in Kentucky, and he is confident of winning the prize on his exhibit.—Carlisle Mercury.

Hemp is now quoted at \$4.50, a fall of 50 cents last week, and a total decline of one dollar within the last sixty days. The slump of the week was due to great quantities of Manila hemp put aboard ships at Manila, a total of 60,000 bales. Hemp brokers declare that this breaks all previous records. Lower prices of harvest twines will follow the decline in prices of Manila. A prominent New York broker predicts 6 cents Manila, which means 9 cents twine. Last year twine was as high as 14 cents.—Lexington Herald.

## CLARK COUNTY ITEMS.

Born, Tuesday, March 13th, to Rex M. Scobee and wife, of Winchester, a daughter.

Sunday 11th, was Eld. J. M. Nash's regular appointment at Stanton. At the service he had eleven additions to the church.

S. T. Siephenson, of Winchester, has rented and moved to the Mill McClure property on Green-Briar, in Montgomery county.

More tobacco buds have been buried during the past week than ever before known during the same length of time. The present prospect is for a tremendous crop.

Mrs. Harriet Cooper, wife of Ben F. Cooper, died suddenly Wednesday morning at her home on the Iron-works pike of heart disease, aged fifty-seven years. She was a noble Christian woman with many friends, and a devoted member of the Christian Church.

Now that the City Council of Winchester, has repealed all ordinances along that line, the State law will govern things and all infractions will be tried in Judge Evans' court. The State law allows all work of charity or necessity, and allows lively stable or drug stores and restaurants to remain open on Sunday. A determined effort will be made, we understand, to have all stores, etc., closed on Sunday. Many storekeepers would gladly close on Sunday if their competitors would also close.

The Clark County Children's Home will be ready for public inspection Saturday, March 17th, from 2 to 5 o'clock p. m., at which time it will be dedicated to Him who orders all good for the use of His destitute and orphaned little ones in this county. Rev. B. B. Bailey assisted by other ministers, will conduct the services. The services will be held at three o'clock and everybody is invited to attend.

## TWO SENATORS' TESTIMONY.

Tell What They Know of Catarrh and Pe-ru-na.

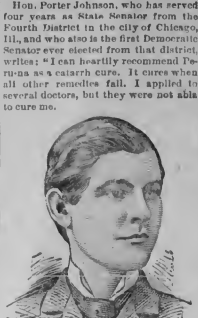

HON. EDWARD DWYER.  
(Senator 11th District, Chicago, Ill.)

Hon. Edward Dwyer, State Senator, Seventeenth Senatorial District, Chicago, Ill., writes: "Pe-ru-na cures when all other remedies fail. I can heartily recommend Pe-ru-na as a catarrh cure. It has been two years since I was cured, and I consider my cure permanent. I took the remedy for two months and am now entirely cured. I applied to several doctors, but they were not able to cure me. I tried many remedies without avail."

"My catarrh was located chiefly in the head. I was afflicted with catarrh for seven years."

Pe-ru-na cures catarrh wherever located. Who is it that says Pe-ru-na will cure catarrh where located? Doctors say it, lawyers say it, preachers say it, a vast army of men and women say it who have tried it. The old and the young say it. They say it in the east, in the west, they say it in the north and the south.

HON. PORTER JOHNSON.  
(Senator 10th District, Chicago, Ill.)

I took the remedy for fifteen weeks and am now entirely cured. It has been a year and a half since I was cured, and I consider my cure durable. I was afflicted with the catarrh for five years. My catarrh was chiefly located in the stomach."

### Alden Benedict's "Quo Vadis"

"Quo Vadis," well staged and full of impressive pictures, will be presented at the Grand Opera House, Mt. Sterling, Ky., on Tuesday evening April 24. The drama, and the representatives of all religious denominations unite in pronouncing it the most moral, and interesting production that has ever found place upon any stage. It is a story of the time of Nero, with scenes and incidents illustrating the struggle and triumph of the early Christian Church. There are many difficulties in the way of a fully satisfactory production of these stirring events, but it is said that Chas. W. Chase, the dramatist, who has utilized the wonderful material created by Sienkiewicz, the immortal Polish writer, has worked out the problem with the most wonderful skill. The play is in six acts, and a brief synopsis of them will doubtless prove interesting to all readers of the book. Act one takes place in the gardens of Aulus Vitellius, where the Roman soldier, Vitellius, falls madly in love with the Christian maiden, Lygia. Polydorus, in order to secure the maiden for his nephew, commands that she be taken to the house of Caesar. Aulus, imitating the example of Virgilinus, in order to preserve the honor of his child, tries to take her life, but is prevented by the Florio guard. In act two we see the feasting in the imperial palace, and Nero, "the mad poet," attempts to sing an ode on the burning of Troy, which his eunuchs pronounce as "a poem fit for the gods." But Petronius tells him that his verses are common, and, being a fool, it is his duty to write better. Nero then pleads that he has never seen a burning city and later in the act commands that Rome be burned for his amusement; in this act Vitellius becomes crazed with wine and assaults Lygia, but is rescued by the giant, Ursus. In act three, Chilo makes his first appearance promising to find Lygia for Vitellius, which he does in scene two at a meeting of the Christians, presided over by the Apostle Peter; in scene three Ursus kills the famous wrestler, Croton, Vitellius is delivered into the hands of the Christians, and the true light of Christianity begins to dawn upon him while listening to the teachings of the Apostle. In act four, Vitellius is converted, Rome is burned, the mob threatens Nero, and like a coward he places the blame of the conflagration upon the Christians. Act five takes place in the gardens of Nero during a spectacle of the burning of the Christians; in this act, Poppea, the wicked Empress tempts Vitellius, offering to save Lygia if he will accede to her guilty passion, which he refuses, and Lygia's fate in the arena, seems to be assured, when Peter bids him to have faith; a very touching scene is also introduced here in the farewell between Vitellius and Lygia in which the strong fortitude of the new religion is brought out with striking effect. This act ends with a strong climax. Chilo, the apostate, is converted to Christianity and accuses Nero of the burning of Rome. Act six takes place in the arena. Both Lygia and

Chilo re-affirmed their freedom if they will renounce their food and both refuse. Chilo picks up his cross and goes to meet his death, and Lygia is tied to a mad bull and is rescued from death by the giant Ursus, who, with super-human strength breaks the neck of the bull.

It can thus be seen that all the motifs of the book have been preserved in the play. A strong cast of characters, beautiful scenery and costumes, and a perfect production, is promised by the management.

## FASHIONS CHANGE

In Dogs as in Everything Else—The Toy Pomeranians

American women appear to be following their English cousins in their appreciation of toy and pet dogs. Within the last few months a great many more than usual have been sent over here from Great Britain, and they include a number of toy Pomeranians, a variety of which the fashionable centers of New York, Boston and Philadelphia have hitherto had little knowledge. Charming specimens in black, white, sable or brown these little creatures, sometimes known as Spitz dogs, make; and they have obtained great popularity, for, besides being hardy and active, they are affectionate, cleanly and intelligent.

Japanese spaniels are not such favorites on this side of the Atlantic as is the case abroad; but pugs are by no means rare, and there is a congregation of King Charles, ruby and Blenheim spaniels, most of which have been imported from well-known British breeders. Yorkshire terriers are greatly sought after in this country, and from time to time many of the leading specimens have been brought over from their native land. But the great care required on their "toilet" must always prevent their becoming a common commodity.

The popularization of the varieties alluded to has naturally had a tendency in a contrary direction so far as the Mexican dogs are concerned, which a few years ago were so fashionable in New York. The tiny Chihuahuas, with its quaint manners and delicate constitution, must always be interesting because of its rarity; but the hairless or crested dog, frequently misnamed the African dog, has little excepting an unattractive appearance to commend it. Perhaps English toy spaniels and the toy Pomeranians make an agreeable substitute for either.—Chicago Daily News.

## CECIL RHODES

Something of the Famous South African Millionaire.

"That 'Providence' is generally on the side of the big battalions," is a favorite quotation of Cecil Rhodes. "My battalions," he says, "are pounds sterling."

"In securing these 'pounds sterling,'" says Alden Benedict in "Alders," "the genius of Cecil Rhodes is prominent. He is a master of finance; the more long-headed and shrewd the man, the more readily can Rhodes separate him from his money. To show what capital he can command without paying the shareholders a cent of dividend, he not only states that two years ago the British South African Chartered company had expended \$25,000,000 in Rhodesia, that the British taxpayer had not contributed a farthing toward this and that since its establishment the Chartered company has earned no money for its shareholders. He handles millions as another would handle, and is not fastidious how he gets them. When treasurer general of Cape Colony at the age of 28, Gen. Gordon met Rhodes and told him of his refusing a room full of gold offered by the emperor of China for crushing the uprising rebellion. "What a magnificent opportunity!" exclaimed Rhodes. "I would have taken as many roomfuls as I could have got!"

"The bigger the aim the more money you need," is his motto, and Rhodes is essentially a man of big endeavors. He first cornered the diamond output of the world, and made humanity pay his price for love of adornment. Then he annexed 40,000 square miles of valuable land to the English empire and finally attempted to confiscate the richest gold mines on earth, and, incidentally, paint the South African republic British red. These three jobs required untold sums."

Mrs. Calvin Zimmermann, Milledgeburg, Pa., says, "As a speedy cure for coughs, colds, croup and sore throat One Minute Cough Cure is the best. It is pleasant for children to take. I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption.

# S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments or troubles so obstinate and difficult to cure. Very few remedies claim to cure such deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of all blood diseases, and gets at the foundation of the worst cases, and drives the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, only to break forth again more violently than ever; S. S. S. forces out every trace of taint, and risks the system of its forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who injected me with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I preferred death. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

**RELIGIOUS.**

Thirty-two churches in Louisville are preparing to hold special meetings.

The subject for the prayer meeting at the Baptist Church is "The Holy Spirit, the guide."

Patriotic service in the Sunday School on Home Missions was observed at the First Presbyterian Church Sunday. Collection \$10.53.

Beginning with the second Sunday in April Pastor W. J. Bohn of the Baptist Church assisted by Rev. W. D. Nowlin will begin a series of meetings with the Baptist Church. Mr. Nowlin is a fine preacher. Prepare to attend the meetings.

The B. R. V. Bishop Bates, of Lexington, and Rev. J. S. Meredith, of this city, held mission services last Thursday evening at the court house in Carlisle. Bishop Bates and Rev. Meredith also held services Wednesday night in the Baptist Church at Millersburg. A dozen or more of Rev. Meredith's congregation attended the services at Millersburg.—Rouben News.

The First Presbyterian Church gives every evidence of a new life, the congregations are steadily growing, the Sunday School is active, and the prayer-meetings are spiritual and helpful. The new pastor, Rev. Geo. A. Joplin, preaches strong, practical, spiritual sermons. Miss Aldrich, of Lexington, has been secured to assist in the music of the Church, both in

**DEATHS.**

**KELLY.**

Mrs. Mary J. Kelly, aged seventy-three years, died in Paris Wednesday morning at the residence of her daughter, Mrs. Florence Lockhart. The deceased was a most estimable christian woman and was a faithful member of the Methodist Church. She was the widow of the late Rev. Samuel Kelly. She is survived by four children, of whom are: Rev. Gilby Kelly, of Nashville, Mrs. Florence Lockhart, of Paris.

**CRAVENS.**

On last Tuesday at her home near Grassy Creek, of consumption, Mrs. Frank Cravens, aged about thirty years. Scripture reading at the grave by the Elder of the Somerset Christian Church, of which Mrs. Cravens had long been a member.

**PEEL.**

Mrs. Ed Peel, daughter of Cliff on Duale, of this county, died at Tucson, Arizona, on Sunday morning, March 18th, 1900, after a short sickness. No particulars given. She married three months ago at Lexington. The body is expected here on Friday or Saturday.

**HURT.**

Wm. Hurl, of Columbia, Mo., brother of Col. J. S. Hurl, of this city, died at his home on yesterday morning. No particulars. He was a native of this county, but has lived in Missouri for many years. He was a highly respected and influential man.

**TRIMBLE.**

Mrs. Eliza Trimble died at her home near Forks of Elkhorn, six miles from Frankfort, Ky., on Friday evening, March 16th, 1900, after a sickness of three days.

The funeral service was held at the village Christian Church on Sunday morning conducted by Rev. Thos. N. Arnold, of Franklin county, and her nephew, Bruce W. Trimble, of this city. Nelson and J. G. Trimble Jr., also attended the service. The burial was in the Frankfort cemetery.

She was the daughter of Col. Jerry South and wife, and was the oldest of fifteen children, the youngest being the wife of Congressman T. Y. Fitzpatrick.

She was born Sept. 1800 in Breathitt county, where she lived until 1850, when her father's family moved to Frankfort when he became Warden of the Kentucky penitentiary. At the close of his first term the family moved to the country, near the present home of the deceased. Here in 1863, she was married to Asberry Trimble, of Hazel Green, Ky., brother of J. G. Trimble, of this city.

In the early fall of 1864 her husband was killed—leaving a son—Samuel Trimble, present Representative of his county in the Legislature, and Speaker of the House.

She continued to live at Hazel Green until 1871 when she moved to Frankfort, her father having been re-elected Warden, since which time, she has lived in the city and county.

By nature she was endowed with a fine mind, was simple in her tastes and dress, caring but little for what may be designated as the "social life" of the Capital.

Owing to the connection of her father with Kentucky politics and public life, she was thrown much into the social life of the city. She had clear cut ideas about the issues of the day and was a fine talker.

She was industrious, social in her sphere, kind and hospitable. Her chief crown was her strong and abiding faith in the Christ, and activity in His service.

During the childhood of the writer, she, for about eight years, was a prominent factor in the religious life of Hazel Green. She was gifted in prayer and instruction in the Sunday School, prayer meeting and other services of the Lord's house, and with pleasure he recalls her Godly life. If we mistake not, she was not so conspicuous in religious matters in Frankfort, except in her home.

During her residence in the country she has been a tower of strength for the little congregation blessed by her presence and untiring labor.

Some contributions were carried over till next week.

**MARRIAGES.**

**COLLIER-GREEK.**

On March 1st at Frenchburg, Judge W. C. Taylor officiating, Mr. Ben Collier to Miss Ollie Greer. They are of the best people of Frenchburg and we extend hearty congratulations.

**DAY-PERKINS.**

On Wednesday at the home of Rev. D. W. Robertson, in this city, Mr. Day and Miss Perkins, of Sherburne, Ky., were married.

**HEINRICH-MILLER.**

Cards are out announcing the marriage of A. F. Heinrich, of Lexington, brother of Thomas Heinrich, of this city, to Miss Daisy Mae Miller, of the Borden Baptist Church, Borden, Indiana, on the 28th inst. Ceremony will be performed by Rev. W. C. Jones, of Louisville. We are acquainted with these most estimable young people. They have our hearty congratulations.

**Dressmaking.**

Mrs. Georgia Thompson and Mrs. Emma Thompson have opened a mantle-making establishment in the front room over New York Store on E. Main St. They are well known in this community, and are fully acquainted with all the new 1900 spring and summer styles. They guarantee satisfaction in every particular, and ask a share of the patronage of the city.

**MARCH COUNTRY.**

Between 800 and 1,000 cattle on the market. Quality of stock was not good. Prices were very high, so high that sales were slow, and very little trading done up to noon.

The best 750 to 800 lbs., steers brought 5 cts. Most of sales were below this price. Yearlings sold at most any price that was asked and no good ones sold below 5 cts. Heifers at 3 1/2 to 4 cts. Cows at 3 1/2 to 3 cts. Canners sold universally high, some bringing 3 cts.

Some 120 lb. hogs sold at \$1 and a premium.

There was a miserable nasty one, and taking everything into consideration, was unsatisfactory. We give some of the sales:

James Ewin, of Stanton, sold 41 yearling and two-year-old steers at \$1.50. Salvers & Co., sold a lot of 900-lb. cows to Treadway & Welch at 3.60. Major Burchett sold 30 700-lb. cattle to O. N. Hatfield, of Bath county, at 4 cts. Tom Davis sold 10 cows and two steers averaging about 900 lbs., at 3 1/2 cts; Davis & Jones sold to J. B. Stewart, of Bourbon county, one yoke of cattle at \$123.50, at least 5 cts; A. H. Hampton, of Clark county, bought of same party, one yoke of steers at \$122.50, weight about 2400 lbs. Keeton & Co., sold Ben Willis, of Clark county, 30 heifers, about 525 lbs., weight, at \$29.50. Ray Moss bought a lot of 700-lb. cows and heifers at 3 1/2 to 4 cts; O. H. Downing sold 100 118-lb. hogs to Cap Gillispie at \$4 and a premium. There was a lot of cattle not sold at night.

**HORSES AND MULES.**

The mule trade was not so brisk. A good many in town, but very few good ones. We noticed 10 hand mare mule at \$145. Most of the sales at \$75 to \$110 per head. Horse trade was about as usual. Sales of some plug hogs at from \$40 to \$65, a few sold as high as \$75.

See price display at the Guthrie Clothing Co.'s next Friday and Saturday.

**Phone 64.**

W. W. Wilson, who since his father's death, has been conducting the business left by him, has removed to the T. F. Hoke's building on Mayville street. Business will be conducted according to former method, and the same high grade of cattle, sheep and hogs, well fattened, will be slaughtered and dealt out to the people at the most reasonable prices.

drilling the choir and in solo singing. The next communion service will be held on the first Sabbath of April. The annual congregational meeting will be held on the first Monday of April at 10 o'clock, when the annual reports will be presented and church officers elected. The services are held each Sabbath at 11 a. m. and 7 p. m. A cordial invitation to attend is extended all persons not having a church home.

Sunday was a day of unusual interest at the Methodist Church. Dr. C. F. Reid, Superintendent of the Methodist Missions in Korea, and who spent twenty years in the Mission work of China and Korea, spoke moving and evening to large audiences on the work in those countries. Many things were a revelation to the people and the two addresses had the effect to cause those who heard him, to feel a greater interest in mission work. There was a full choir, which rendered a splendid programme of Missionary hymns. The violin accompaniment, by Miss Lida Robertson, was beautiful and inspiring.

# THIN

Lots of people have thin hair. Perhaps their parents had thin hair; perhaps their children have thin hair. But this does not make it necessary for them to have thin hair.

One thing you may rely upon—

**AYER'S HAIR VIGOR**

makes the hair healthy and vigorous; makes it grow thick and long. It cures dandruff also.

It always restores color to gray hair, all the dark, rich color of early life. There is no longer need of your looking old before your time.

\$1.00 a bottle. All druggists.

As a remedy for restoring color to the hair I believe Ayer's Hair Vigor has no equal. It has always given perfect satisfaction in every case.

Mrs. A. M. Brown, Aug. 18, 1898, Hammondport, N.Y.

Write the Doctor.

He will send you a book on The Hair and scalp from your request. If you do not obtain all the benefits you expect from the use of the Vigor write the Doctor about it.

Address, Dr. J. C. Ayer, Lowell, Mass.

## Goebel Monument Fund.

Numerous suggestions have been received that the people for whom William Goebel labored and for whom he gave his life, should be permitted to contribute to a fund to be used in the erection of a monument to his memory at Frankfort, Ky.

Acting upon these suggestions the undersigned citizens of Kentucky do now offer this opportunity to all those who desire to join in this testimony to the sterling worth, the great intellect, the truth, the honor, and the courage of this martyr to the cause of civil liberty and the prosperity and happiness of the whole people, to contribute such sums as they may wish to the perpetuation in marble of that which will live in their hearts—a loving memory of William Goebel.

Every contribution will be acknowledged by the committeeman to whom it is sent, by a certificate which will be a memento.

Those who feel able to give only small amounts should not hesitate to contribute, as this fund is created for the purpose of affording a loving people an opportunity to participate in a noble offering. An organization of the committeemen has been formed for carrying out the purpose of the contributors.

The above is a circular distributed over the State. The committeemen designated to receive funds in this county are J. S. Frazier, cashier of the Exchange Bank; G. W. Baird, cashier of the Traders Deposit Bank; W. B. O'Connell, County Clerk; N. R. Bright, Circuit Clerk; M. O. Cockrell and W. F. Horton.

Americans are known as a dyspeptic people. The extent of this disease may be inferred from the multitude of so-called "medicines" offered as a remedy. They are often in tablet form and have no value except as palliatives of the immediate effects of dyspepsia. The man who used them may feel better but is surely getting worse. They do not touch the real cause of the disease. Dr. Pierce's Golden Medical Discovery is a medicine especially prepared to cure diseases of the stomach and organs of digestion and nutrition. It is not made to give temporary relief but to effect permanent cure. In ninety-eight cases out of every hundred it cures perfectly and permanently.

It has cost Dr. Pierce \$25,000 to give away in the last year the copies of his People's Common Sense Medical Adviser, which have been applied for. This book of 1008 pages is sent free on receipt of "one cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## THE CONUNDRUM CLUB.

A Puzzle Offered by One of the Members.

They had started a conundrum club, and everyone was expected to come prepared with a number of good ones.

"I've got one," Anderson said. "What is it?" queried the rest.

"When is an apple pie?" He stopped, and everyone looked at him, but said nothing.

"Well," asked a man across the room, "go on. What did you stop there for?"

"Go on? Where? What for?" he asked.

"Why, go on with your conundrum. When is an apple pie?"

"That's what I said," he replied. "Well, we know; but what is the conundrum?"

"When is an apple pie?"

"There isn't any sense in that," put in another fellow. "What's the rest of it?"

"There isn't any rest," persisted Anderson. "When is an apple pie?"

"When is an apple pie?" yelled the others.

"Who said any apple pie what?"

"You did."

"I didn't. I didn't say anything about an apple pie."

"You did."

"I didn't."

"You did."

"I didn't."

And then the whole assembly sat on Anderson, and when the police came in and rescued him it took half an hour to explain that an apple was pie when it was closed up with sugar and crust and things, like any pastry. It smashed up the club, though, and the conundrum's usefulness is that far established.—London Tit-Bits.

## SURPRISED HER HOST.

Successful Author who Wrote Over a Machine from de Plume.

Alexander MacArthur, author of a successful study of life in the Latin Quarter of Paris, which brought to the writer both popularity and profit, is also the pupil and biographer of Rubinstein and is a close friend of Paderewski. The author lived for two years in St. Petersburg, corresponding for the London press, and taking part in some thrilling adventures, but the most singular of the writer's experiences happened in Chicago after the novel had been brought out by a publisher of that city. The book had been so successful that the publisher decided to give the author a dinner to which a dozen of the leading men of letters in the Lake City were invited. The guests had assembled when the author was announced.

Through the blue haze of smoke there appeared a handsome young woman attired in evening dress.

"We are expecting Mr. MacArthur," said the host, "Mr. Alexander MacArthur, the novelist."

"No I understand," returned the unexpected guest. "I am Alexander MacArthur, the publisher."

"Yes, I don't know? I am Lillian MacArthur, at your service. I have been waiting over the name of Alexander ever since I left my home in Dublin."

It was with the work of a minute to rearrange affairs, and the dinner was that success.—Saturday Evening Post.

## SYSTEM OF CHAPERONAGE.

Not as Rigid in America as in the Continent.

In the old world the system of chaperonage is very rigid indeed. In Europe young girls are taken care of as though they were the most precious pieces of porcelain. They are surrounded by a high wall of conventionalities that it is impossible to break down or vault over.

For a young girl to appear alone on a public street in many of the large European cities is to at once lay herself open to insult. In America, thank Heaven, the men are more chivalrous and gallant, and it is possible for a young lady to travel unattended from one city to another without the fear of being molested.

In the large eastern cities girls are most carefully chaperoned on all occasions. In many of the cities of the south there is greater latitude allowed, although in New Orleans, where French customs prevail, a girl may scarcely cross the street without the attendance of an elderly woman or her negro maid.—Cincinnati Commercial Tribune.

Keep your mouth closed while riding. This same advice should be followed more or less when you are off the wheel.

## "Housework is hard work without Gold Dust"

**WASHING WOOLEN BLANKETS**

The theory now is, that blankets must be washed instead of dry-cleaned to be healthy. To wash your blankets do as follows: Take one ounce of Gold Dust Washing Powder and add a quart of water to it for half an hour; then simply move it around and rub the soiled spots; place in warm water of the same temperature as the one in which you wash it, hang up to a warm place or a suitable radiator for and see what a soft, white blanket you will have.
